

SYED UMER TASSAWER

Software Engineer | AI Automation (n8n) & Frontend Development

Islamabad, Pakistan | +92 317 7875983 | umertassawer594@gmail.com | linkedin.com/in/syed-umer-tassawer-0aab072b9

PROFESSIONAL SUMMARY

Software Engineer with over a year of hands-on experience designing, building, and maintaining production frontend websites, complemented by growing expertise in AI automation — leveraging n8n for workflow automation and Python/FastAPI for backend services powering internal tools. Skilled in owning frontend projects end-to-end, from requirements through deployment, using React.js and Next.js, while applying AI-assisted tools to accelerate delivery. Experienced in coordinating IT operations and technical support within a fast-paced organizational environment.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, HTML5, CSS3

AI & Automation: Python, FastAPI, REST APIs, n8n workflow automation, AI-assisted development, AI API integrations

Other: Git/GitHub, Web Deployment, IT Coordination & Technical Support

PROFESSIONAL EXPERIENCE

IT Coordinator & Web Developer

Sep 2025 – Present

PRIZE – Policy Research Initiative for Zakat Based Interest-Free Economy, Islamabad

- Own the organization's web presence end-to-end, architecting, building, and maintaining its official website using React.js and Next.js.
- Advancing into AI automation alongside web development, building internal tools with Python, FastAPI, and n8n to automate manual processes and streamline operations.
- Independently delivered two additional production systems (detailed under Key Projects below), managing each from requirements gathering through deployment.
- Apply AI-assisted development tools and workflow automation to accelerate delivery and minimize manual effort across projects.
- Coordinate day-to-day IT support and administrative operations, ensuring smooth technical operations alongside development responsibilities.

KEY PROJECTS

PRIZE Official Website

React.js, Next.js — Architected and developed the organization's public website, enhancing its digital presence and streamlining content management.

Book Inventory Management System

Node.js, PostgreSQL, n8n — Developed an internal system to digitize and manage book inventory records, integrating n8n-based automation to streamline stock updates and eliminate manual tracking.

E-Commerce Website (Client Project)

React.js, Node.js, PostgreSQL — Delivered a complete e-commerce platform for an external client, managing the project from requirements gathering through deployment.
